

Crab's Claws

Crab cannot eat cookies;
They crumble in his claws.
He cannot fly a kite
Because he always cuts the cord.

But Crab can clip your hedges
Like no other clipper can.
His skills of cutting out
Are quite renowned across the land.

Make crab claws
with your hands.

Crab's claws go C C C
As they clip and trim,
Let's make that sound and clip away
With crab claws just like him!
