

Octopus Tom's Orange

Tom is an octopus,
So obviously really great
At drawing or at painting
Anything he'd choose to draw or paint.

But Tom wants to draw an orange.
How to do it? He's not sure.
What shape is an orange?
Which shape should he draw?

An orange is a circle!
That's the shape, I'm sure!
Show Tom in the air,
The shape that he should draw

Draw a circle in the
air with your finger.
