

# Worm's Washing Machine

Wiggly Worm is hair obsessed,  
But worms do not have hair.  
Thus, she has a wavy, woven  
Wig she likes to wear.

But that wig gets dirty  
When she tunnels through the ground.  
Thus, she'll whack it in the wash  
And watch it spin around.

Roll your hands over  
each other like a  
washing machine.

Don't worry worm, your wavy wig  
Will soon be nice and clean  
Once it's had a thorough wash  
In your washing machine!
